We agree and welcome the mission outlined.
In relation to this Strategic Plan more generally, we welcome the clear focus on ACEs. The real commitment to partnership working is evident throughout the plan and we welcome that.

SBNI Vision:
Our vision is that all children and young people are seen, heard and protected in order that they grow up in safety, thrive and fulfil their potential

(Limited to 150 words)
SBNI Values:

We listen to children and young people, their wishes, feelings and experiences and place them at the heart of what we do.

We work in partnership to safeguard and promote the welfare of children and young people.

We develop, empower, respect and value those who work for us as we strive for excellence in what we do.

We are open, honest and transparent in our dealings with children and young people, our members, partners and staff and we respect diversity and promote equality in all that we do.

We are all accountable to one another and to those we safeguard and protect.

**Question 5:** Do you agree that our values meet your expectation of a modern safeguarding public service for children and young people?

Yes [X] No

**Question 6:** If no, what would you have expected to see that is not reflected in our values?

(Limited to 150 words)
Strategic Priorities

Strategic Priority 1: To provide leadership and set direction in the safeguarding and protection of children and young people.

1.1 To disseminate and facilitate the embedding of the 2017 Regional Core Child Protection Policies and Procedures to protect and safeguard children and young people to ensure greater consistency and standardisation of practice.

1.2 To develop, disseminate and facilitate the embedding of the 2018 Regional Practice Guidance of the 2017 Regional Core Child Protection Policies and Procedures to ensure greater consistency and standardisation of practice in order to protect and safeguard children and young people.

1.3 To raise awareness of child protection and safeguarding issues by developing an engagement and communication strategy to ensure that children, young people, families and communities are more aware of these issues and how to get help if concerned.

1.4 To ensure the SBNI Safeguarding Panels engage with children and young people, parents and practitioners to hear their views on the child protection and safeguarding system in order to improve practice.

Question 7: Do you agree that Strategic Priority 1 and its aims are correct for the SBNI?

Yes [X] No [ ]

Question 8: If no, what changes to this priority and/or its aims would you make?

(Limited to 150 words)

We welcome the commitment to engage and include children, parents and families within this strategic priority and the others. This will require a focussed effort to ensure real engagement in implementation, with the strategy developed in partnership with those partners working directly with families and children.

We also welcome the trauma-informed approach being taken, aligned to and inclusive of early intervention, resilience building and strength-based work, and recommend that the Board considers engagement with schools to broaden awareness of child protection and safeguarding issues, particularly in the ACEs context.
Strategic Priority 2: To provide a voice to children and young people affected by domestic and sexual violence and abuse.

2.1 To work with government departments and their agencies to prevent domestic and sexual violence and abuse (DSVA) from occurring and to tackle child sexual exploitation.

2.2 To work with partners engaged in the DSVA arena to raise awareness among parents/carers and professionals of the effect of DSVA on children and young people.

2.3 To work with partners engaged in the DSVA arena to promote training for children and young people in how to recognise, respond and seek help in relation to DSVA.

Question 9: Do you agree that Strategic Priority 2 and its aims are correct for the SBNI?

Yes [X]  No [ ]

Question 10: If no, what changes to this priority and/or its aims would you make?

(Limited to 150 words)

We welcome this Strategic Priority. However, we believe there is scope to expand point 2.2, to explicitly demonstrate a commitment to raising awareness of the effect on all children and young people, including vulnerable or under-reported groups such as boys or disabled children.

Point 2.3 could also be expanded to reflect the need to promote training in how to recognise and respond to DSVA for groups other than children and young people, for example adults working in the night time economy, through programmes such as Barnardo’s Nightwatch. In addition, we question whether ‘training’ is the appropriate term to use in relation to children and young people, and suggest language reflecting an ‘awareness raising’ ethos, such as that used below for point 3.4, would be more appropriate in this context.
Strategic Priority 3: To improve outcomes for children and young people affected or potentially affected by neglect through promoting the early recognition and improvement of agency responses.

3.1 To promote early intervention with the aim of preventing children and young people experiencing neglect.

3.2 To increase awareness of neglect with children and young people, their parents/carers and staff.

3.3 Through the Safeguarding Panels ensure the views of children and young people, parents/carers and staff inform practice in relation to neglect.

3.4 To work with partner agencies to provide training in how to improve the recognition, assessment, and responses to children, young people and families experiencing neglect.

Question 11: Do you agree that Strategic Priority 3 and its aims are correct for the SBNI?

Yes [X]  No 

Question 12: If no, what changes to this priority and/or its aims would you make?

(Limited to 150 words)

We welcome the emphasis on early intervention and prevention evident throughout this strategy and particularly within this priority. Again, we welcome the commitment to engage and include children, parents and families, and note that this will require a focussed effort to ensure real and meaningful engagement in implementation. We also again wish to raise the specific and critical role of schools within this point, and the need for schools to be ACEs aware as a vehicle to understand and identify neglect and its impact.
Strategic Priority 4: To provide a voice to children and young people affected by mental health issues.

4.1 To work with government departments and agencies to reduce the incidence of those affected by mental health issues.

4.2 To work with partners to raise awareness among parents/carers and professionals of the effect of poor mental health on children and young people.

4.3 To work with partners to promote awareness for children and young people in how to recognise, respond and seek help in relation to mental health.

4.4 To work with partners to promote training in how to improve the recognition, assessment, and responses to children, young people and families experiencing the impact of mental health issues.

Question 13: Do you agree that Strategic Priority 4 and its aims are correct for the SBNI?

Yes [ ] No [ ]

Question 14: If no, what changes to this priority and/or its aims would you make?

(Limited to 150 words)

Whilst we welcome the recognition of mental health as a serious issue impacting the lives of children and young people, we recommend that the wording of this priority is expanded to include ‘wellbeing’, to reflect the broader range of emotional issues that can have negative impacts on outcomes for children and young people. We also again welcome the commitment to working with parents to raise awareness, and recommend that the language of this priority recognises that both child and parental mental health can impact the outcomes for the child.

We welcome the commitment to working with partners to raise awareness of the effect of poor mental health and how to identify and respond to it; as part of that, we believe there is scope to work with new partners to communicate to a broad range of society how poor child mental health can have significant impacts within the education system, justice system, etc.

We welcome the implied emphasis on early intervention and prevention within the language of this strategic priority and suggest that could be made more explicit.
Question 15: Are there any other strategic priorities and/or aims that the SBNI should adopt?

(Limited to 150 words)

We welcome the strategic priorities outlined and the specific focus on domestic and sexual violence, child and parental mental health, and neglect. However, it is of course important that these explicit references do not mean that other ACEs and forms of neglect, including ‘hidden harm’ such as parental substance misuse, are overlooked in the incoming strategic plan period.

We also welcome the ongoing commitment to previous strategic objectives, and wish to note that Barnardo’s also has an organisational contribution to make in relation to FGM and the CSE of boys and young men.

Other:

Question 16: Is our draft strategic plan easy to understand?

Yes [X] No [ ]

Question 17: If no, what can be done to make it easier to understand?

(Limited to 150 words)

Question 18: Do you think that there is anything missing from our plan?

Yes [ ] No [X]

Question 19: If Yes, please state what you think is missing.

(Limited to 150 words)

We are pleased to see the actions committed under each strategic priority and are keen to participate and contribute further as these are developed.
