

Jobs Project: Insight

After the JOBS Projects' 10 week programme and after interviewing successfully and achieving employment with Amazon we asked our young people their thoughts on the programme.

If you could pinpoint one moment of the 10 weeks that you enjoyed or that benefited you the most, what would it be?

'The budgeting booklet really helped me. I could never really budget before. Now look at me, I CAN!
Also when we first came together as a whole group and created the logo, I enjoyed sharing my ideas and producing something that represented us.'

What did you most love about The Jobs Project?
'No questions are stupid and everyone's voice is ALWAYS heard!'

How do you feel now you have completed the programme?

'I feel more confident and I've developed so many new skills that I never had at the start of the programme. I'm very appreciative for all the support I was given.'

How do you feel now you're in employment?

'I feel ecstatic! I don't even have words to explain how I feel gaining my own income and feeling more independent and more of an adult than I did at the beginning of the 12 weeks. I feel like a man.'

Journey of becoming successful
