

Jobs Project: Insight

Hear from the voices of our young people on their journey through the JOBS Project after attending our 10 week programme.

'With a spotlight on developing work skills, this course has everything and anything you need to prepare you for being employed. I feel ready!'

'The programme gave me the opportunity to meet new people. This improved my ability to cope in social situations. Now I'm just excited about the experience of meeting EVEN more new people in my new employed role!'

'There is a real focus on keeping in contact with the young people after they have completed the programme. – A brilliant and often over looked added touch, which I really needed and appreciated.'

'I found the programme rather nerve wrecking at first..., but thanks to an extensive look at me as an individual, I was given the time and found the right environment for me to shine and show what I can do.'

Journey of becoming successful
